**Date :** \_\_\_\_\_

**Notes:** \_\_\_\_\_

**To get started just start with one task. For example, “Put my potty seat on the potty”. If you are using a potty chair, start with “Pulled down pants”. Place a little star or checkmark for each task completed. Go slow and don’t get frustrated, like anything, some toddlers will pick this up quickly and others will take a little extra time. Be patient and encouraging, it’ll happen.**
